

CSFI 9720 CAPITAL COURT, SUITE 200 MANASSAS, VA 20110

ABOUT CSFI

The Cyber Security Forum Initiative (CSFI) is a non-profit organization headquartered in Omaha, NE and in Washington DC with a mission "to provide Cyber Warfare awareness, guidance, and security solutions through collaboration, education, volunteer work, and training to assist the US Government, US Military, Commercial Interests, and International Partners."

CSFI was born out of the collaboration of dozens of experts, and today CSFI is comprised of a large community of over 90,000 Cyber Security and Cyber Warfare professionals from the government, military, private sector, and academia. Our amazing members are the core of all of our activities, and it is for them that we are pushing forward our mission.

"CSFI IS AN INCREDIBLE FORUM AND RESOURCE FOR CYBER SECURITY CONTENT. AS A STRATEGIST FOR CYBERSPACE, I RELY ON KEEN INSIGHTS AND FOCUSED INFORMATION. I TURN TO CSFI DAILY...IT'S MY PREMIER CONDUIT TO BOTH LEARN AND COLLABORATE WITH THE CYBER SECURITY COMMUNITY."

Harold "Punch" Moulton
Major General (ret.), USAF
CSFI Advisory Director

CYBER VIEWS

Cyber Views is an educational and networking event series hosted by CSFI to provide a new "view" of the cyber security landscape, held at a venue with spectacular views of the city.

Sponsorship contributes to program development and CSFI's mission to provide a greater understanding and awareness of cyber security solutions. CSFI is a proud supporter of USO, the United Service Organizations, and Honor Flight Network. A portion of sponsorship dollars raised will go to benefit these important organizations.
